Message From the Vice Chancellor

Dear Recruiters,

I am delighted to present the 2024-27 cohort of JKLU's BBA programme which is designed to help students build a solid foundation in core business disciplines and develop practical skills and professional confidence.

At JKLU, we understand that in today's rapidly evolving world, the convergence of knowledge, technology, and industry insight is essential for equipping students with the skills to navigate complex global challenges.

In this spirit, we place a strong emphasis on creating opportunities for our students to bridge the gap between theory and practice. Through internships, live projects, and corporate engagement, we aim to cultivate well-rounded professionals who not only excel in their chosen fields but also possess the critical thinking, adaptability, and innovation required to lead in a dynamic business environment.

Our students, guided by a world-class faculty of scholars and industry practitioners, are driven to explore interdisciplinary solutions and to challenge conventional paradigms. Their training is designed to reflect the latest industry trends, ensuring that they bring both fresh perspectives and practical knowledge to any organisation they engage with.

As we continue to build strategic partnerships with leading businesses, we invite your organisation to play a pivotal role in this journey. By offering internship opportunities and collaborative initiatives, you can help shape the careers of young professionals, while benefiting from the dynamic insights and cutting-edge skills that they bring. Together, we can create an ecosystem of growth and innovation, contributing to the sustainable development of industries and society at large.

We look forward to fruitful collaborations and the opportunity to build lasting relationships with your esteemed organisation.

Vijaysekhar Chellaboina

Vice Chancellor
JK Lakshmipat University

From the Director's Desk

Dear Esteemed Business Partner,

At the outset, I extend a very warm and enthusiastic welcome to you. I deem it a privilege to introduce our institution and the talented pool of students we have to offer for internship opportunities at your esteemed organization. Institute of Management (IM) is one of the three constituents of the JK Lakshmipat University (JKLU) that offers various undergraduate programmes in management discipline. At IM-JKLU, we are committed to providing a high-quality business education to our students that equips them with the knowledge, skills and attitude necessary to thrive in an ever-changing world.

The curricula of all our BBA programmes are highly distinctive and have been meticulously designed to meet the current as well as future industry needs. Besides core courses in the management discipline, the programme structure provides ample opportunities for students to choose their own electives / concentrations and specialise in their chosen fields of interest, such as Entrepreneurship; Banking, Financial Services and Insurance (BFSI); Financial Technologies (Fintech); Business Analytics & Marketing. The teaching pedagogy employed by our team of highly qualified and experienced faculty members makes learning highly engaging and impactful.

We invite you to visit our campus and consider our students for internship/placement opportunities within your organization. Our talented pool of students possesses the right blend of domain knowledge, positive attitude and necessary skills that makes them stand out from others. Our students come equipped with the latest industry knowledge, a strong work ethic, and a determination to succeed. They are well-prepared to meet the challenges of the modern business landscape and bring fresh perspectives to drive innovation and growth. We believe that this interaction will convince you of the immense potential our students possess.

In closing, I would like to express our gratitude for considering Institute of Management, JK Lakshmipat University as your trusted source for outsourcing talent.

We look forward to a fruitful and enduring partnership that benefits both your organization and the bright minds that we are privileged to nurture.

Dr. Ashwini Sharma

Acting Director, Institute of Management
JK Lakshmipat University

About

JK Lakshmipat University

Founded in 2011, JK Lakshmipat University (JKLU) continues JK Group's 140-year legacy of excellence and commitment to nation-building. Accredited with an 'A' grade by NAAC, JKLU is at the forefront of innovation, blending academia with industry through its interdisciplinary programmes in engineering, management, and design that prepare students to excel in an ever-evolving workspace.

JKLU's faculty includes accomplished scholars from globally renowned institutions such as the IIMs, IITs, NIDs, and other top universities worldwide. The university's curriculum focuses on interdisciplinary learning, hands-on projects, and practical problem-solving, providing students with the flexibility and choice of tools they need to address complex challenges and drive a meaningful change.

The university's strong industry connections, real-world projects, and immersive internships form a core part of the JKLU experience, bridging the gap between academic knowledge and practical application. Through strategic partnerships and exchange opportunities with leading institutions in India and abroad, students gain a global perspective that enriches their education and broadens their horizons.

At JKLU, students also benefit from access to cutting-edge centers such as the Centre for Critical Thinking and Communication, the Atal Incubation Centre, and the AIMA BizLab. These platforms foster innovation, entrepreneurship, and critical inquiry, encouraging students to explore new ideas and develop a problem-solving mindset.

With state-of-the-art facilities, a vibrant campus community, and a culture that nurtures talent, JKLU empowers students to become leaders, innovators, and changemakers, poised to make a positive impact on society.

The JKLU Edge

Legacy of Excellence & Nation Building

JK LakshmiPat University proudly carries forward the legacy of the JK Group, one of India's oldest and most respected industrial conglomerates which has made invaluable contributions to the nation's economic growth and social transformation for over a century

Headquartered in New Delhi, the organisation spans a diverse spectrum of industries including automotive tyres, cement, paper, textiles, agriculture, dairy, healthcare, risk management, and education. With operations across more than 50 countries, the group employs over 40,000 employees and generates annual revenues exceeding 50,000 crore (USD 6 billion).

The JK Group's enduring commitment to nation-building was shaped by Late Lala LakshmiPat Singhania (1910-1976), a visionary industrialist who championed the creation of India's intellectual and social capital through strategic investments in education and healthcare.

That legacy was carried forward with equal conviction by Shri Hari Shankar Singhania (1933-2013), who served as President of the JK Organisation and as the founding Chancellor of JK LakshmiPat University (JKLU).

Today, the JK Group exemplifies not only industrial leadership but also a deep and continuing commitment to inclusive growth, sustainability, and purpose — values that align with the evolving aspirations of a modern India and the global community it increasingly shapes.

Institute of Management

Institute of Management (IM) has been established to develop business leaders for tomorrow who will be capable of meeting the challenges of corporate world.

The curriculum is designed to enrich students with the knowledge and relevant skills to prepare them not only to face the contemporary world but also to make them future ready to perform leadership roles assigned to them effectively. It is regularly updated to integrate changes that are taking place in the business environment. The curriculum consists of compulsory (core) and elective courses. The core course package provides students with the foundation of business. Elective courses, on the other hand, are offered with an option to specialize in an area.

Equipped with state-of-the-art facilities and led by outstanding faculty, the Institute of Management challenges the best and the brightest minds to develop the skills of business management and the art of compassionate care and values. As one of the nation's emerging premier institutions in management, IM is dedicated to advancing management knowledge in all fields of business, commerce & management through innovative educational methods. Our faculty takes pride in its commitment to educating the next generation of professionals in business, commerce and management.

Our faculty and student communities are passionate about their work and are poised to make significant contributions to research in area of marketing, finance, human resources, information technology, strategy and operations. IM has always been a leader in cutting edge educational initiatives, having pioneered case-based learning and online multimedia tools and techniques embedded in curriculum.

Innovative Pedagogy

At JKLU, cutting-edge teaching methods meet a results-oriented approach to ensure that learning continues beyond the classroom. Sophisticated facilities and resources refine learning and self-reflection and build timeless skills like critical thinking and communication.

Our distinctive curriculum model, 'Learning at JKLU', creates a holistic learning environment that prepares students for diverse roles as versatile professionals and global leaders.

Industry Interactions

Exchanges with industry experts through mentorship, counselling, and work opportunities develop workplace skills.

Out-of-classroom Learning

Varied challenges and experiences beyond the classroom develop critical thinking abilities and soft skills.

Multidisciplinary Approach

Exposure to different disciplines to broaden perspectives and enhance the scope and depth of learning.

Experiential and Tech-driven Learning

Application of classroom teaching to real-world challenges stimulate problem-solving and accelerate skill-building.

BBA

Programme

Over the past two decades, business models have transformed dramatically, driven by innovative technology and design. Startups and agile market players have created entirely new industries and lifestyles (such as Uber and WhatsApp) while capturing significant market share from long-established companies.

Fintech leaders such as Paytm and Zerodha have also reshaped customer experiences and brought financial services closer to millions of users.

India has been at the forefront of this transformation, with over 100 unicorns and world-class digital payment systems like UPI and IMPS—so efficient and robust that several countries are adopting them as models. The BBA programme at IM-JKLU aims to prepare learners for this evolving landscape by building a strong foundation in core management principles, equipping them with new-age skills (communication, critical thinking, entrepreneurial mindset, etc.), and offering focused specializations that ensure graduates are job-ready from day one.

In addition, the programme emphasizes experiential learning through industry collaborations, live projects, internships, and hands-on exposure to digital tools and real business challenges. This approach ensures that students not only understand theoretical concepts but also develop the ability to apply them in dynamic, real-world environments.

Bachelor of Business Administration (BBA / BBA-Hons.)

The Bachelor of Business Administration programmes (BBA/BBA-Hons.) at IM, JKLU are comprehensive undergraduate offerings designed to develop future-ready business professionals with global perspectives. These programmes combine foundational business knowledge with practical skills, real-world case studies and simulations that help the students to drive towards academic excellence and holistic development. The multidisciplinary approach equips students with the adaptability and foresight needed to navigate an increasingly complex business environment.

Marketing:

This specialization explores both digital and traditional marketing strategies, consumer behavior, and global market dynamics. Students develop skills in campaign design, data analytics, and strategic marketing, preparing them for careers in brand management, digital marketing, and market analysis.

Entrepreneurship:

Focused on the lifecycle of business ventures, this specialization covers innovative business modelling, resource management, and sustainability practices for creating a new venture. Graduates are equipped for roles such as business developers, strategic planners, and innovation managers.

BFSI (Banking, Financial Services, and Insurance):

Students gain expertise in banking operations, insurance management, financial modelling, risk management, fintech and regulatory framework. Career paths include financial analysts, credit analysts, portfolio managers, financial risk manager and insurance advisor.

Business Analytics:

Designed to equip students with skills to manage and analyse complex data sets for informed decision-making. The curriculum includes advanced statistics, analytical tools, predictive modelling, and machine learning, leading to careers such as business analyst, data scientist, management consultant.

Bachelor of Business Administration

BBA (Fintech)

The specialized 3-year BBA Fintech program equips students to lead innovations in the financial technology sector. This program integrates core business management principles with specialized knowledge of fintech innovations such as blockchain, digital payments, analytical tools, financial modelling, artificial intelligence and machine learning in financial services. The program ensures graduates are prepared for the evolving demands of the global financial ecosystem.

The curriculum combines theoretical insights with hands-on learning through industry collaborations, case studies, and internships, ensuring graduates are future-ready. The BBA FinTech program equips students to excel in roles like fintech analysts, digital banking specialists, and innovation consultants, empowering them to lead in a dynamic, technology-driven financial landscape.

Key Highlights

Comprehensive & Specialized Education

Offers strong business fundamentals with specializations in marketing, BFSI, analytics, entrepreneurship, and fintech.

Interdisciplinary Learning

Choice Based Credit System enables flexible, personalized learning through multidisciplinary electives.

Technology Integration

Training in advanced digital tools and technologies with hands-on internships and simulations.

Innovation & Entrepreneurship:

Courses in key areas such as digital finance, blockchain & AI/ML, and incubation support build entrepreneurial and problem-solving skills.

Ethics & Sustainability

Embeds ethical and sustainable practices across core courses.

Expert Faculty & Industry Mentorship

Experienced academicians and industry experts provide rigorous and practical learning guidance.

Curriculum

Core Courses

Fundamentals of Business Management	Introduction to Fintech
Business Mathematics	People and Organization
Financial Accounting	Marketing of Financial Products and Services
Microeconomics	Banking and Insurance Operations
Macroeconomics	Advanced Excel
Business Statistics	Principles of Financial Risk Management
Principles of Marketing	Financial Modelling
Cost and Management Accounting	Legal and Ethical Landscape of Fintech
Financial Management	Financial Markets and Services
Managing Human Behavior in Organizations	Financial Markets and Services
Operations Management	Business Laws and Ethics
Entrepreneurship Development	Foundation of Business Analytics
Business Research Methods	Idea to Business Model
Consumer Behavior	

Disciplinary Specific & General Electives

Marketing	Entrepreneurship
Service Marketing	Climate Tech and Social Entrepreneurship
Integrated Marketing Communication	Managing Growing Business
Brand Management	Business Model to Product Market Fit
Sales and Distribution Management	Startup Legal Essentials
Digital Marketing	AI and Digital Footprints for Business
Marketing Analytics	Entrepreneurs Secrets and Strategies
Business-to-Business Marketing	New Venture Financing
Retail Management	Project Planning and Proposal Development
Rural Marketing	Incubation and Ecosystem for Growth
International Marketing	Design Thinking for Entrepreneurs
Customer Relationship Management	Disruptive Technology and Business Innovation

BFSI/Fintech	Business Analytics
Principles of Financial Risk Management	Data Analysis using R/Python
Personal Finance and Investments	Data Visualization Tools
Banking Principles and Operations	Predictive Analytics
Principles and Practice of Insurance	Machine Learning
Marketing of Financial Products and Services	Social Media and Web Analytics
Micro Finance and Fintech	Prescriptive Analytics
Financial Modelling	Database System and SQL Programming
Options and Futures	Analytics for Risk Management
Financial Analytics	Deep Learning for Business

Ability Enhancement Courses

Fundamentals of Communication	Perspectives on Contemporary Issues
Environmental Science and Sustainability	Communication and Identity
Critical Thinking and Storytelling	Understanding and Managing Conflicts
Design Thinking	Critical Thinking for Decisions at Workplace

Field Work/Project/Internship

Capstone Project	Summer Internship Project
Summer Social Project	Business Simulation Exercise (BizLab)
